

Digital Gardeners Needed to Spruce Up Websites

Project Title	Digital Gardeners Needed to Spruce Up Websites
Project Summary	Your green thumb is needed to help the IHS Division of Behavioral Health programs bloom and grow an online presence.
Country	United States

Project Description

Spruce up the IHS Division of Behavioral Health webpages! Each virtual intern will be assigned to work with a program lead to help replant our websites. All sites will need to be analyzed to determine what is most frequently visited pages, how to improve navigation, understanding what needs to be most relevant, and how to make the information user-friendly and easily digestible.

Required Skills or Interests

Skill(s)
Graphic design
Infographic design
Website design

Additional Information

For more information, visit www.ihs.gov/dbh. The homepage is in desperate need of a makeover including the "programs" tab that lists several sites that will also need to be revamped.

Language Requirements

None
